

Alex

| [linkedin.com/in/alex](https://www.linkedin.com/in/alex)

Summary

User-obsessed **product experience specialist** with a deep technical background in **B2B software for enterprise and SMB clients**. Combines **empathy, curiosity, and structured problem-solving** to provide best-in-class user support! Expert at navigating complex, rapidly-evolving products (**APIs, integrations, and sandboxes**) to resolve thorny tech issues. Proven track record for transforming messy user feedback into actionable product insights. Comfortable operating independently in remote, async, distributed teams. Based in  & ready for APAC coverage.

Career Snapshot for

Ownership: Led client-facing product support across ambiguous, fast-changing environments (CitiBank, Amex, IAN)

Tech Deep-Dives: Provided Level 3 technical support for 11,000+ users and 30 partner organizations (IAN)

Enterprise B2B Support: Analyzed pain-points from Fortune 1000 clients to drive product enhancements (Amex)

Customer Advocacy: Designed a feedback triage process to accelerate resolution of critical user friction (CitiBank)

Support at Scale: Provided real-time support for a complex, global migration impacting 300k+ users (CitiBank)

Product Enablement: Created training and documentation that cut implementation time by 75% (Amex)

Complex Tooling: Utilize a daily AI toolkit for research and workflow prototyping

Skills

Customer Experience: B2B support, SMB & enterprise clients, user empathy, voice-of-customer synthesis

Tech Support: Troubleshooting with SaaS integrations, staging environments, browser dev tools, and GitHub repos

Tech Enablement: Scalable support workflows, documentation, product training, distilling highly-technical concepts

Resolution: Root-cause analysis, defining problem scope, outlining comprehensive customer workarounds

Product & Workflow: workflow mapping, process improvement, product feedback loops, tech release support

Methods & Tools: Agile Scrum, Kanban, SAFe, Kaizen, asynchronous communication, QA collaboration

Emerging Tech: AI product design, prompt tooling, AI ethics & bias evaluation, digital adoption tools

Experience

AI & Emerging Tech, Self-Employed | Aug 2024 – Present

AI Data & Curator, The Middle Frame | Mar 2026 – Present

- Curate culturally accurate MENA photo datasets for AI training within a custom CMS
- Create multilingual annotations (English/Arabic) to **improve model quality, reduce bias**, and strengthen edge-case representation

Product Manager, Pool | Apr 2025 – Jul 2025

- Defined target audiences and prioritized features for a Web3 crypto funds management platform
- Coordinated distributed team of **7 builders across 5 regions and a 15-hour spread** for product execution

AI & Emerging Tech Researcher, Emerging Tech Sabbatical | Aug 2024 – Feb 2026

- **Won \$1,500 USD AI bias bounty** (Humane Intelligence) for disability-focused, inclusive product design
- **Secured \$1,000 USD government grant** (Ministry of Digital Affairs) to research AI trends in Taiwan
- Selected for competitive programs in ethical AI (All Tech Is Human) and decentralized finance (SheFi)
- Additional activities: Featured speaker for LTUX Taipei; learned Mandarin Chinese (A2 proficiency)

CitiBank | Mar 2022 – Jul 2024

Senior Product Manager, Global Digital Platforms & Data Services | Jan 2024 – Jul 2024

Product Manager, Global Digital Platforms & Data Services | Mar 2022 – Dec 2023

- Owned product experience for a financial platform serving **350,000 unique active users with 4.2M monthly logins across 26 languages and 350+ countries** and/or jurisdictions
- Led **troubleshooting-focused product discovery** and UX modernization **across critical workflows**, simplifying navigation from 700 menu items to 250+ and improving usability for global users
- Directed a **multilingual platform migration affecting 300,000+ users**, coordinating deployment, UX standards, and real-time enablement for service, sales, and support teams
- Designed a **global customer feedback triage process**, recruiting 25 stakeholders for a "test-and-learn" pilot to accelerate the escalation and resolution of acute user pain points; **averaged 25+ tickets per day**
- **Partnered with analytics and operations teams to identify process gaps** and improve coordination across 6 Agile Release Trains

American Express | Nov 2016 – Mar 2022

Senior Product Manager, Global Commercial Payments | Aug 2021 – Mar 2022

Product Manager, Global Commercial Payments | Aug 2018 – Jul 2021

Product Owner, Digital Customer Acquisition | Nov 2016 – Aug 2018

- Owned Corporate Meeting Card roadmap for annual **\$4B USD global line of business (30+ markets)**; leveraged analytics, competitive insights, and client feedback to drive prioritization
- **Protected \$1M in annual charge card spend for 70+ Fortune 1000 clients** by resolving product concerns and advocating for enhancements based on customer pain points
- Drove \$200M growth in 18 months while balancing **customer support needs, triaging integration bugs**, and prioritizing between product enhancements and platform maintenance
- Reduced product implementation time from 9 months to 2 months by **surfacing and documenting previously unknown processes** and streamlining the support-to-launch workflow
- **Reduced build time 12→6 weeks** for B2B card launches (Amazon Small Business, American Express Blue Business Plus, Hilton Honors) with proactive decision-making, clear communication, and technical acumen
- Built **alignment across conflicted internal teams and external partners** to keep escalations moving
- Managed end-to-end product lifecycle: product launches, legacy technology migrations, scrum ceremonies, mapping requirements, backlog grooming, prioritization, and **issue resolution**

Immigration Advocates Network / ProBono.net | Aug 2015 – Nov 2016

Associate Product Owner

- **Provided Level 3 technical support for 11,000+ users and 30 partner organizations**, resolving issues and managing escalations in a fast-changing environment (5-7 tickets per week)
- **Filled operational and product gaps** across Product, Project Management, QA, UX, and Business Analysis
- Worked with a globally distributed team across 6 time zones and 3 countries, strengthening **async communication and cross-functional coordination** (USA, South Africa, India)

Pixelly Design | Jan 2000 – Dec 2015 (Adhoc)

Art Director & UX Designer

- Provided UX design and brand strategy to clients across 5 countries: USA, Canada, Malaysia, China, India
- **Won 11 professional creative awards** in regional and international design competitions
- First place winner (\$30,000 USD seed funding) at Startup Weekend Saratoga
